

PRIMARY CARE CLINIC

ACCEPTING NEW PATIENTS!

With our primary care, Alaga Healthcare Group will be alongside you in managing your health more closely. Alaga Healthcare is a group of practitioners that practice in

critical care. Alaga Healthcare was started by a critical care nurse who became a nurse practitioner who has seen gaps in care as the reason for patients to get acutely ill and need hospitalization. Alaga Healthcare's goal, through Alaga Chronic Care Management, is to optimize your health at home and lower your risk of getting acutely ill and needing hospitalization. Meet our providers:

John has 7 years of experience in intensive care. He was trained to manage critically ill patients in a trauma level hospital. He also was a surgical nurse and has extensive experience in the operating room.

Shawn has 4 years working as a nurse practitioner hospitalist, internal medicine and critical care. He worked in Colorado and Prescott as a nurse practitioner internal medicine. He is very thorough and will manage all your chronic conditions.

If you have chronic conditions such as Heart Failure, High blood pressure, Diabetes, High Cholesterol levels and other medical conditions, call (928) 350-7900 or ask your home health nurse to make an appointment.
